By GEORGE SOKOLSKY THE HIGH COST OF MEDICINE

Every once in a while, someone writes on the high cost of medicine, the excessive utilization of hospitals, the unnecessary reference to specialists As I read such articles, I cannot help wondering whether those writers write for nothing, whether they never ask for higher pay, and whether they never believe that they are underpaid consider-

ing their alleged talents. I can go by my experience. During the past two or three years an exceptional proportion of my income has gone to doctors and hospitals, but the alternative would undoubtedly have been no income and beyond any doubt, a tombstone which would have cost more than my hospital bill. In fact, half a century ago, nobody survived who had my combination of illnesses, and as the cost of burials has gone up with inflation, I figure that the doctors who kept me alive and fighting, did it at a very fair price.

Motivation a Puzzle

What, then, is the motivation behind Khrushchev's passion for a "summit" conference? very question has puzzled high officials in the Western governments, and they have talked about it recently among them-

Perhaps it is oversimplification to say that Khrushchev's egoism and desire for the limelight in the role of big boss of the Soto care for the 900,000 Arab refugees from Palestine, now kept in United Nations camps in sure for a "summit" meeting. Actually, a "summit" conference is about the last place in the world for any negotiation of the give-and-take variety to be carried on. If the head of any government wants to make a concession, he would hardly like to do so in the limelight. Plainly, Khrushchev has no intention of making any public surrender on positions he has taken. Also, with the many vital questions at stake, a week is a brief time in which to accomplish anything. On this point the following extract from Mr. Eisenhower's latest press

to visualize such a thing. If you meet with a group of world leaders, it is rather hard to keep the spotlight off of it. And if you are going to talk, doing this informally, it would be with batteries of interpreters and re-corders and all that sort of thing. It would almost inevitably change, I think into something rather formal."

So what is the purpose, after all, of "something rather formal"? Several newspapers in Britain regard the "summit as enveloped with an aura of miracles, and they resent Mr. Eisenhower's tendency to be realistic. Indeed, the peoples of the free world are being urged to believe that a "summit" con-ference is a meeting where edly wants a big show. The Ladies Auxiliary to Saugerties Memorial Post 5034 sent Mrs. Church a letter endorsing her resolution. A reply from Mrs Church received earlier this month states that the House Committee on Armed Services is, at present, engaged heavily in Department of Defense bills and that no new matters can be brought up until after the Easter recess. She appealed for letters addressed to the committee expressing and uring that the hearings be scheduled promptly. The townsfolk in Ulster County can help. Write Honorable Carl Vinson, Chairman, Committee on Armed Services, House of

Representatives, Washington 25, D. C., urging the passage of H.J.Res. 621. To quote Mrs. Church in her initial plea to Mr. Vinson: "Tomb of the Unknowns," besides having a slightly macabre connotation, is definitely a mis-statement. Much more is known about the American boy who went courageously forth to bat-tle for his ideals than could ever be deemed 'unknown.' The only thing unknown about that boy is who he was; what he was is engraven on every American

heart."
Mrs. Church continues, "The term 'Unknown Soldier,' which has come to mean so much to all Americans, certainly is a generic term covering the soldiers of all 10. wars in the minds of American people. What we are honoring is the courage and sacrifice in war which the memorial symbolizes. Above all, all three now buried within the Tomb are there because they were soldiers. In these days, it seems increasingly important that we honor, rather than omit that term."

NEW YORK (AP) - If spring comes can vacation time be far ehind?

Many workers may think the time much too far off, but most managements have already set up their schedules

The practice of giving vacations to hourly workers has grown steadily, especially since the war. This raises for management the twin problems: 1. Better to shut down the plant entirely for a time or to stagger the vacations? 2. If we close down the manufacturing plant, how many of the other corporate functions should be kept going?

sinces Too Good

The marked trend toward shutting down entirely seems to have hit a snag this year. The snag is that business is too good to be

passed up.

Last summer saw a big jump in plantwide vacations. The reason then was that business was far from humming. Plant shutdowns have other ad-

vantages for some companies. It's a fine opportunity to do re-pair and maintenance work. And though for most the summer is a poor time to take inventory, shutdown does give a chance to get rid of old goods and rear-

range operations.

The Research Institute of America Inc. has queried companies in many industries and on the basis of 500 replies it reports they are about equally divided summer between staggering vacations or shutting down all or most operations for one period.

Social Security Changes Listed For Dependents

September 30, 1959, can be an important date for dependents of certain disabled workers, according to George J. Johnson, district manager of the Kingston, New York Social Security Administration office.

The 1958 amendments to the Social Security Act authorized monthly benefit payments to dependents of a worker who is re-ceiving disability insurance benefits Johnson explained. He added, however, that as in the case of other types of social security payments, retroactivity is limited to 12 months from the date a claim is filed. Thus, since the amendments became effec-tive with September 1958, an application must be made no later than September 1959, in order to avoid the loss of one or more months' benefits. Of course, no payments can be made for months before September 1958, the month the law

April 1 Trout Bill Is Signed

Governor Rockefeller has signed a bill setting a uniform season throughout the state for catching trout and landlocked salmon. The season opens April 1.

The measure will close the season on Sept. 30, unless the Conservation Department makes excetpions. Under the previous law, the season had varied by several weeks in different counties.

The bill gives the Conserva-tion Department authority to extend the season beyond Sept. 30 to as late as Dec. 31 for Seneca, Cayuga and Skaneatles Lakes.

The department also is empowered to close fishing waters any time after Labor Day to prevent the depletion of trout and landlocked sal-

Javelin Record Aided by Wind

ABILENE, Tex. (AP) - A 258 foot, 4-inch javelin throw by Bill Alley helped Kansas win the Abilene Christian College invitational track and field meet Thursday but it may not be recognized as a national collegiate record.

There was 12 - miles-per-hour wind at Alley's back as he bettered the record of 257 feet 1 inch set by John Fromm of Pacific Lutheran last year in the NCAA.

Oliver Jackson, coach of Abilene Christian and director of the meet, expressed some doubt that the record would be recognized because of the wind.

Kansas won the meet with com parative ease, racking up 711/2 points.

Alley went to Gainesville, Fla. to compete in the Florida Relays and the Kansas mile relay team, accompanied by Easton, left for Chicago to appear in the Chicago Relays.

In the meet here Abilene Chris tian was second with 56½ points; Ohio State, third with 43; South ern Methodist, fourth with 311/2 Houston, fifth with 19, and Baylor last with 151/2.
